

Why did Pope Francis ask the Vatican to build a solar farm?

Pope Francis last year asked the Vatican to study developing the area into a vast solar farm, hoping to put into practice his preaching about the need to transition away from fossil fuels and find clean, carbon-neutral energy sources. Pope Leo XIV visited the site in June and affirmed that he intended to see Francis' vision through.

How will the Vatican's new energy system work?

According to the Vatican's press office, the installation will apply the most advanced solutions currently available, balancing clean energy generation with the preservation of agricultural use, the region's hydrogeological stability, and the protection of its cultural and archaeological heritage (ZENIT News / Rome, 08.01.2025).-

Does Vatican City have solar power?

Yes. Vatican City has joined Albania, Bhutan, Nepal, Paraguay, Iceland, Ethiopia and the Democratic Republic of Congo to become one of just eight countries in the world to generate 100% of its electricity from renewable sources. Several church organizations around the world are making the move to solar.

Will a Vatican Radio station be installed in 2025?

The future installation would be projected to "ensure, not only the power supply of the radio station existing there, but also the complete energy support of Vatican City State," he wrote. Fast forward to 2025, and the project is completed.

Will Italy turn a 430-hectare field north of Rome into a solar farm?

(Yara Nardi/Pool Via AP) ROME (AP) -- Italy agreed Thursday to a Vatican plan to turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into the world's first carbon-neutral state.

What did Pope Francis say about solar power?

"Fratello sole" or "Brother Sun" was Pope Francis' Apostolic Letter that detailed how solar power is an invitation for people around the world to make lifestyle changes to counter global warming and the "pervasive" use of fossil fuels.

One of the most notable solar projects in Vatican City is the solar roof of the Paul VI Audience Hall. The photovoltaic panels installed here generate approximately 300,000 kilowatt-hours of ...
