

Will Huawei fusion solar power Red Sea city's off-grid energy needs?

Huawei's FusionSolar Smart String Energy Storage Solution will power the Red Sea City's off-grid, clean energy needs. The Red Sea Project, a key part of Saudi Vision 2030, is now the world's largest microgrid with 1.3GWh storage capacity.

Will Huawei power Saudi Arabia's Red Sea project?

Huawei has developed the world's largest microgrid power station which delivers 1 billion kWh power supply per year. The new solution will play a significant role in Saudi Arabia's Red Sea project and provide several green electricity benefits.

What is Huawei fusionsolar smart string energy storage solution (ESS)?

Central to this vision is Huawei's FusionSolar Smart String Energy Storage Solution (ESS). This solution will enable the Red Sea Project to independently meet its power needs. The microgrid solution addresses the intermittent and fluctuating nature of solar and wind power. It ensures the safe and stable operation of renewable energy systems.

Will Huawei microgrid power Red Sea project?

As per the details, the Huawei microgrid solution has been providing a 1 kWh green power supply to the Red Sea project since September 2023. In simple words, the microgrid solution not only lessened the power costs but also achieved a record of 10 cents per kWh. This is only 1/3rd of the old diesel power generation techs.

Will Huawei's new energy solution help Saudi Arabia's Red Sea project?

The new solution will play a significant role in Saudi Arabia's Red Sea project and provide several green electricity benefits. On September 8th, the 2024 International Digital Energy Exhibition event was held where Huawei senior executive delivered keynotes.

Why is Huawei involved in the Red Sea project?

Huawei's involvement in the Red Sea Project underscores its commitment to sustainability, technological expertise, and collaboration. "The Red Sea Project provides an unparalleled opportunity to demonstrate this commitment and showcase our industry-leading innovation and technology," said Xing. "It's a blueprint for sustainable cities."

Jun 11, 2025––Huawei Digital Power, in collaboration with SchneiTec, has successfully commissioned Cambodia's first-ever T−V S−D-certified grid ...

Aug 19, 2024··Saudi Arabia's Red Sea Project will feature the world's largest photovoltaic-energy storage microgrid with a 400MW solar PV system and 1.3GWh storage capacity.
