

Can North Macedonia develop solar energy?

The potential for solar energy development in North Macedonia is vast. With estimates suggesting that the country could harness up to 11 GW of solar PV capacity, there is significant room for growth.

Does North Macedonia need electricity?

Although North Macedonia's renewable energy potential is huge (especially solar), the country is still dependent on importing electricity-imported electricity constitutes around 30% of the overall gross consumption.

What is North Macedonia doing to boost energy investment?

North Macedonia has drafted the first laws and agreements on strategic investments in the energy sector, a model the country is using to facilitate and speed up investments in renewable electricity plants. The first four projects are solar power plants Pehcevo and Stipion, cogeneration facility Skopje, and a photovoltaic plant with gas engines.

Which energy sources are used in North Macedonia?

At the moment, most of the electricity in North Macedonia is produced from thermal power plants with coal as the primary energy source. The share of the renewable energy sources in the total installed capacity in North Macedonia is 38%, with most of the renewable energy coming from large hydro powerplants.

Does North Macedonia have a country Factsheet?

Specifically for North Macedonia, country factsheet has been elaborated, including the information on solar resource and PV power potential country statistics, seasonal electricity generation variations, LCOE estimates and cross-correlation with the relevant socio-economic indicators.

How much solar power does Macedonia have in 2022?

By the end of 2022, the country had reached a photovoltaic capacity of approximately 144 MW, with projections indicating rapid growth in the coming years. In 2023 alone, North Macedonia saw an impressive increase in solar capacity, with new installations contributing to a total increase of 251% compared to the previous year.

Oct 25, 2025 · Top Major Seaports & Logistics in Macedonia Macedonia is home to various seaports that facilitate commercial, logistics, and trade activity. These ports are the best ...

May 20, 2025 · Roof Mounts Systems for Solar Panels When installing a solar panel system, you should understand first the different types of installation processes and methods to determine ...

The government of North Macedonia has recently improved the net metering scheme for solar installations

and has launched a EUR1 billion rebate scheme to support the deployment of rooftop ...

Company profile for installer Elektra Solutions - showing the company's contact details and types of installation undertaken.

Ecopower Solutions is your trusted source for sustainable energy solutions in North Macedonia. With over 25 years of experience in the energy sector, ...

Jul 23, 2023 · Ground Mount Systems for Solar When you install a solar panel system at home or your working space, you have different mounting ways to choose from. Although you observe ...

Oct 23, 2025 · Top Major Seaports & Logistics in Macedonia Macedonia is home to various seaports that facilitate commercial, logistics, and trade activity. These ports are the best ...

Sep 16, 2025 · Yes, a sharp rise in electricity prices in 2022 triggered a surge in installations, bringing the current figure to around 900 MW. What is the ...

As North Macedonia transitions to a more sustainable energy future, the role of solar energy has become increasingly significant. With its abundant ...

Jun 24, 2025 · This report provides a comprehensive update on North Macedonia's renewable energy sector for foreign developers and investors. It covers the current landscape across ...

Feb 22, 2024 · Although North Macedonia's renewable energy potential is huge (especially solar), the country is still dependent on importing electricity -imported electricity constitutes around ...

As North Macedonia transitions to a more sustainable energy future, the role of solar energy has become increasingly significant. With its abundant sunlight and favorable climate, the country ...

Sep 15, 2025 · Renewable energy in North Macedonia is transforming the country with locals stepping up to help steer their country on a sustainable path.
