How much power does Peru have?

The electrical network in Peru varies widely throughout the country. The upscale suburb of Miraflores, for example, will likely only suffer from one or two power cuts in a year. Venture out into a rural region, however, and the power becomes significantly more sporadic. Regardless of the outlet type, the entire country runs on 220V and 50Hz.

Does Peru need a voltage converter?

If you were to plug an American 110V device into a Peruvian 220Hz power socket, you'd get a few flying sparks, a whole lot of smoke, and a fried circuit board. Therefore, a voltage converter must be an obligatory accessory on a trip to Peru, right? Not so, actually.
