

Saudi Arabia New Energy Lithium Battery Station Cabinet Factory

What is Hithium doing in Saudi Arabia?

The joint venture also plans to establish BESS (Battery Energy Storage System) manufacturing facilities in Saudi Arabia, targeting an annual production capacity of 5GWh. During the exhibition, Hithium delivered onsite a speech and unveiled the first time its latest cutting-edge innovation: energy storage solutions dedicated to desert applications.

Will Hithium build a BESS factory in Saudi Arabia?

In addition to the product unveiling, Hithium also announced the formation of a new joint venture (JV), through which it plans the construction of a BESS factory in Saudi Arabia with 5GWh annual production capacity.

What is Hithium doing in the MENA region?

Within the MENA region, in May, Hithium launched a cooperation with Turkish engineering company Kontek Enerji's battery storage subsidiary Maxxen, through which the pair seek to promote energy storage systems and establish a production facility in the country.

What is Hithium's new energy storage system?

During the exhibition, Hithium delivered onsite a speech and unveiled the first time its latest cutting-edge innovation: energy storage solutions dedicated to desert applications. These systems feature advanced sandstorm protection and robust high and low-temperature designs, supporting ultra-long discharge cycles of 12+ hours.

Why is Saudi Arabia partnering with MANAT?

Together, we're ensuring Saudi Arabia maintains its leadership position in the global energy transition." "Our partnership with MANAT underscores Hithium's commitment to nurturing strong local relationships and advancing the region's long-term development goals." said Sean Sun, GM of MEA region of Hithium.

Who owns Hithium MANAT?

The JV, Hithium MANAT, has been formed with engineering solutions company MANAT, which was founded and is owned by Nabilah Al-Tunisi, a former chief engineer at Saudi state-owned energy company Saudi Aramco. Al-Tunisi is the CEO of the new JV company.
