

May 15, 2025&ensp;&#0183;&ensp;A powerful solar flare hit Earth in 2025. Learn how it affects satellites, power grids, and your tech. Stay updated on space weather threats.

Oct 22, 2025&ensp;&#0183;&ensp;The solar photovoltaic glass market size reached 32.10 million tons in 2025 and is forecast to reach 74.75 million tons by 2030, ...

May 27, 2025&ensp;&#0183;&ensp;"An increasing number of PV sites have been reporting spontaneous glass breakage in early life systems deployed with these "big, floppy modules"."

Nov 12, 2025&ensp;&#0183;&ensp;Sun unleashes strongest solar flare of 2025--X5.1-class eruption from sunspot AR4274 sparks R3 radio blackouts across Africa and Europe, CME racing toward Earth.

Feb 2, 2021&ensp;&#0183;&ensp;Analysis determines we are in Solar Cycle 25 - The solar minimum between Solar Cycle 24 and 25 - the period when the sun is ...

May 14, 2025&ensp;&#0183;&ensp;Watch the sun erupt with an X2.7-class flare on May 14, causing radio blackouts across Europe and Asia. More solar activity could ...

Jul 1, 2025&ensp;&#0183;&ensp;Here are some frequently asked questions regarding solar flares, CMEs, and their potential impact on Earth, particularly in relation to the approaching solar maximum in 2025.

13 hours ago&ensp;&#0183;&ensp;Microsoft will buy power from two new Arag&#243;n solar plants via Zelestra and fund ECODES to support community projects for vulnerable groups.

1 day ago&ensp;&#0183;&ensp;Enchantments are powerful upgrades for your Weapons & Equipment. Enchantments have a set chance to be applied to a weapon ...

Nov 14, 2024&ensp;&#0183;&ensp;Scientists now predict that the next solar maximum is expected to peak in about 2025, setting off a period of increased solar ...

May 27, 2025&ensp;&#0183;&ensp;"An increasing number of PV sites have been reporting spontaneous glass breakage in early life systems deployed with these ...

Mar 25, 2025&ensp;&#0183;&ensp;The upcoming explosion - whether it occurs in March 2025, November 2025, or sometime in 2026 - will be a spectacular reminder of the dynamic nature of our universe. ...

Jul 4, 2023&ensp;&#0183;&ensp;The sun is quickly approaching a major peak in solar activity. Experts warn

it could potentially begin by the end of 2023, years before ...
