

# Tariffs on energy storage products in Laos

What is the tariff rate for imports from Laos?

The current tariff rate for imports from Laos is 40%. However, this rate can vary depending on the specific product category and any applicable trade agreements or exceptions. How do Laos tariffs affect import costs? Laos tariffs directly increase the cost of importing goods by 40% of the product value.

What are the tariff rates for electrical appliances in Laos?

Explanation: Electrical appliances, such as refrigerators, air conditioners, and washing machines, are widely imported into Laos. The tariff rates for these products range from 5% to 10%, depending on the product's classification and value.

What are the tariff classification and import/export duties in Laos?

Tariff Classification and Import/Export Duties Laos adopts the Harmonised System (HS) and duties are collected on both imports and selected exports. All imports are subject to VAT (exports are exempt) and some imports are subject to excise tax (e.g. gasoline, alcohol, electrical appliances).

What tariff system does Lao PDR use?

At present, Lao PDR is using the Tariff Nomenclature 2022, which commodities are classified based on the ASEAN Harmonized Tariff Nomenclature (AHTN) and Harmonized Coding System (HS Code) of the World Customs Organization (WCO).

How does the Lao import tax system work?

The Lao import tax system aims to promote imports of inputs for investment and production while protecting domestic production and limiting luxury imports. Certain foreign investments are not obliged to pay import duties on imports of capital machinery and equipment for production.

What products does Laos import?

Explanation: Laos imports meat and poultry products, particularly beef, chicken, and pork, as domestic production is insufficient to meet demand. The standard tariff rate on meat and poultry imports is 15%. However, there may be exemptions or reductions for certain items under trade agreements with specific countries.
